

EXHIBITION CARPET

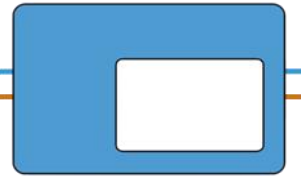

WARNING:

The patterns shown give an indication of colour. However a slight variation must be expected between dye batches, and monitors. All flame retardant materials should be kept free of dust as this may provide a fire source. Goods are offered subject to our Terms & Conditions of trading, a copy of which is available on request. We highly recommend viewing fabric samples before placing an order or manufacture.

EXHIBITION CARPET

Perfect for • Decorative/Scenic • Film & TV • Stage

Exhibition Carpet is durable and hard-wearing for demanding high traffic areas and with exceptional lay-flat properties. The soft-velour surface creates luxurious walkways and sets the tone with a fantastic range of colours. Can be printed with logos and images on request, making this the perfect floor covering for corporate exhibitions.
