

LUREX CRAZY

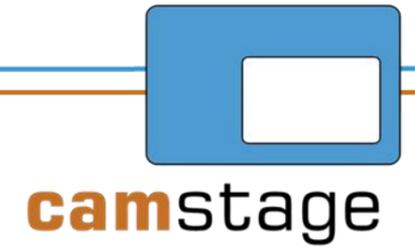

WARNING:

The patterns shown give an indication of colour. However a slight variation must be expected between dye batches, and monitors. All flame retardant materials should be kept free of dust as this may provide a fire source. Goods are offered subject to our Terms & Conditions of trading, a copy of which is available on request. We highly recommend viewing fabric samples before placing an order or manufacture.

LUREX CRAZY

Perfect for • Decorative/Scenic • Film & TV • Stage

Lurex Crazy is like the Lurex Satin, a lightweight Lurex base fabric that has been 'crushed' to give added texture and depth.
